What's Unique about MIJ Special Education Hub?

MIJ Hub is more than just a typical Special Needs school as we aim to fulfil your child's rights for education - helping them to achieve enhanced self-development, thus securing a better future in the long run.

Our Standards

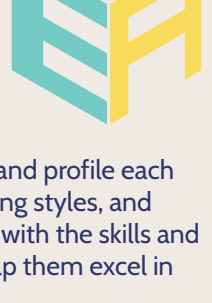

In MIJ Hub, your child's holistic development and readiness in the workforce matter. We strive to develop independence within your child's heart, mind, and body to prepare them for the real world through familiarizing themselves with daily activities.

MIJ Hub is where your child with Special Needs gets all the necessary means to embark on a new adventure, explore their interests, and unleash their true potential.

Our Approach

The EA³ framework is developed uniquely by MIJ Hub and incorporated into all aspects of our organization's curriculum and activities.

This helps to understand and profile each and every student's learning styles, and engage them accordingly with the skills and knowledge that would help them excel in the future.
